Historic village house with garden

Townhouse to renovate for sale in the land of fairy tales

The house is on three levels and is currently arranged as follows: one of the two entrances leads us into the dining room, connected to the kitchen with fireplace from which we arrive at a room - cellar - which has all the characteristics to become a wonderful living room. The first floor offers a double bedroom, a second passage room with fireplace that leads to the stairs to the second and last floor with two double bedrooms.

From the outside, a small courtyard at the back of the house has the second entrance directly into the living room and a room used as a laundry and adjacent to the garden of about 40 square meters with a panoramic view of the valley.

This solution is suitable for those who want to live in a quiet environment.
